The Eleventh International Structural Engineering and Construction Conference (ISEC-11) aims to bring together the state-of-the-art research and their applications in the fields of structural engineering and construction management. The conference will provide a platform to discuss recent technical advancements in the professions of structural engineering and construction. The conference is an excellent opportunity for the exchange of ideas and knowledge, and for discussing future challenges.

### CALL FOR PAPERS

---

Interdisciplinary Civil and Construction Engineering Projects
Who should attend?
Academics, engineers, entrepreneurs, architects, and other interested persons are invited to attend the conference.

Call for Papers
Authors are invited to submit abstracts of between 150 and 250 words at: https://www.isec-society.org/ISEC_11/abstractsAndPapers
Authors must create an account, login, and upload their abstract. Authors of accepted abstracts will be invited to submit full papers for peer review. One author of each accepted paper will be expected to present the paper at the conference. Only accepted papers for which the full registration is paid will be published in the conference proceedings.

Conference Topics
The topics to be covered are in all areas of Structural and Construction Engineering, Air and Water, Architecture and Architectural Engineering, Education and Ethics, Energy, Pipelines, Geotechnical and Foundation Engineering, Project Management, Risk and Safety Management, Sustainability, and others. Please see details at: https://www.isec-society.org/ISEC_11/topics.php
